Companion: Anna Lindqvist Dietary note: Vegetarian

ARRIVAL AND PICKUP

- Flight: LHR -> IST, confirmation TK-1180HX.
- Scheduled arrival: Jun 18, 18:20 local.
- Scheduled pickup: Jun 18, 19:00 local.
- Meeting point: IST international arrivals.
- Driver: Kerem Aydin.
- Driver phone: +90 532 999 0071.
- Name board: Lindqvist.

IF THE PATIENT LANDS EARLY

Eve can answer with the driver name, phone number, and meeting point from this handoff. Eve can record a routine logistics update if the patient simply asks whether the driver can come sooner.

IF THE DRIVER IS MISSING

Escalate as `travel_logistics` when any of these are true:

- Patient cannot find the driver.
- Driver is not answering.
- Patient has waited 15-20 minutes or more.
- Patient is alone, anxious, late at night, or cannot safely leave the arrival area.

Recommended in-thread acknowledgement: "I'm flagging the Essos concierge team now so a human can reach the driver and confirm your pickup. Please stay at international arrivals while we sort this out."

DASHBOARD DEMO NOTE

The seed data intentionally includes an open High escalation for Sofia after she reports that the driver is missing and unreachable.
